

During my daily commute, I listen to XM Satellite Radio and its traffic and weather channels. I also listen in the comfort of my home, because XM Satellite Radio provides variety and quality that are not available elsewhere. This is why I subscribed to XM Radio and I don't believe it should be up to the National Association of Broadcasters to dictate what I am permitted to hear in this regard. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM Radio's ability to provide the kind of programming that XM subscribers such as myself want and deserve.
